

St. Mary's Unpaid Lunch Policy

Procedures for student food service accounts with negative balances

To ensure that every child continues to receive nutritious meals each day, St. Mary's will allow all students to charge up to \$20.00.

To provide you with the most up to date information the FACTS system will communicate with you:

- A parent portal is always available to view food service activity/usage, balances, and to deposit funds into their child's account.
- An automated email from FACTS to parent(s)/ guardian when a food service account is low.

The nutrition of your child/children is important to us. If you would like more information, please contact: Jessica Huebner at 608-742-4998, or jesshuebner@stmarysportage.org
